

## Non-Business Electives

### Consider these options (some classes have prerequisites):

COMM 2500: Interpersonal Communication	MATH 1300: Analytic Geometry & Calculus 1
ECON 3070: Intermediate Microeconomic Theory	
ECON 3080: Intermediate Macroeconomic Theory	MATH 2400: Analytic Geometry & Calculus 3
CSCI 1300: Computer Science I	PSYC 1001: Intro to Psychology
	PSYC 2606: Social Psychology
	SOCY 1001: Intro to Sociology

You can use Non-Business electives to complete a minor or certificate outside of Leeds such as:

Technology, Arts & Media  
Computer Science  
Economics  
Math

## Business Electives

Leeds students are required to take 16 credits of Business Electives. Any class taught in the Business School that is not required for BCOR or your area of emphasis can count. Business Electives are typically taken during the third and fourth years, when students have declared an area of emphasis. Each area of emphasis will have recommended electives.

Classes required for the Leeds certificate programs can count toward Business Electives, and some certificates require non-

Business of Sports  
Entrepreneurship & Small Business Management  
Global Business  
Operations & Information Management (OPIM)  
Quantitative Finance  
Real Estate  
Socially Responsible Enterprise (CESR)
