

3rd Boulder Summer Colloquium in German Studies

Laura Olson Osterman's Book is Translated into Russian

German Immersion & Career Days

Monday, October 10, 2016
The first day of German Immersion & Career Days was a success. We had a great time learning about the German language and culture. We also had a chance to meet with professionals in various fields and learn about their careers. The day was filled with interesting activities and presentations. We were lucky to have so many people who were interested in learning about Germany. The presentations were very informative and gave us a good idea of what it's like to work in different industries in Germany. We also had a chance to practice our German skills and learn some new words. It was a very enjoyable day and we all had a great time. We look forward to the next day of German Immersion & Career Days.

On Tuesday, October 11, 2016, we continued our German Immersion & Career Days. We had a chance to meet with more professionals and learn about their careers. We also had a chance to practice our German skills and learn some new words. It was a very enjoyable day and we all had a great time. We look forward to the next day of German Immersion & Career Days.
